Subject: Inquiries and Responses

RFP/ITB#: Carpet, Tile and Fabric Panel Cleaning Services RFP# 105 - 2021

**Inquiries and Responses:**

1. For the section on page 22, bottom section approximate 38,016 sf and tiles 6,016 it says time required. Are you all looking for the time per month it will take to complete in hours format? Or per day because we got the team and equipment. Because I read a example in the solicit about 2 times a week work days or 7 days a week to complete the areas? Just wanted to get clarification of the time frame specifically you all was asking about. Is it pertaining to hours per month my guys will need to be there?

**We are looking for how long it will take you to clean these areas during your monthly visit.**

**Example: It will take 3 people 6 hours each to clean the high traffic carpet areas and tile specified.**
