Rocketown Administrative Settlement and Early Relocation

- The Rocketown Property must be demolished in order for the NES Substation to be relocated and the Korean Veterans Boulevard to be widened. In order to keep the substation relocation on schedule, MDHA purchased the Rocketown property. It was originally supposed to be part of the KVB acquisition that won't start until later this summer. When MDHA purchased the property on February 19, 2010 and a move-out date was set for June 20th for Rocketown to vacate the property.
- Once we commenced construction, it has become increasingly difficult for Rocketown to continue daily operations and for us to navigate around them. There are several utility relocations going on around them and we have closed Shirley Street on the north side of their property.
- They recently approached us and the Mayor's office to find ways to ease the inconvenience or find a way for them to move early. In order for them to move early they would need additional relocation funds. The Mayor urged us to find ways to accommodate them.
- In addition, we recognize the important work that Rocketown undertakes [for teenagers experiencing neglect, abuse, poverty, absent parents and normal peer pressures] and we want to ensure that Rocketown is able to continue provide services and opportunities [in arts, music, action sports and mentoring programs for teenagers and their families] from a centralized downtown location
- We have reached – pending Authority approval - an administrative settlement with Rocketown that recognizes the difficult situation we have created around them; that prevents us from having to move them to a temporary location; and recognizes that an early relocation of Rocketown is in the best interests of both parties.
- Therefore, Rocketown has agreed to terminate its lease and vacate the property by May 10th. In order to do so they will have to close for a short period of time. In return the Authority will make an initial payment of \$575,000 by June 1st and an additional payment of \$400,000 will be made contingent upon Rocketown's ability to raise approximately \$400,000.
- As a result, we would like for this Committee to recommend approval of this Administrative Settlement and Early Relocation to the Full Authority.

The program will have a MCC on-site location as well as easily accessible locations in the community.

Program Candidates:

Program candidates are individuals who have expressed interest in employment opportunities through the application process currently underway at the MCC construction site and online at musiccitycenterdbe.com as well as individuals participating in existing construction-related training programs offered by community-based organizations. Program participants will undergo screening and job-readiness training to ensure that individuals recommended for employment are prepared to carry out the job.

[The information required by this Subsection D shall be provided pursuant to Schedule G-2001 (attached).]

H. Reporting Subcontractor Substitution or Replacement. The Construction Manager or prime contractor, as applicable, shall report any replacements or substitutions of the use of DBE subcontractors to the BAO in advance of making the substitution. For reporting purposes, the prime contractor shall report to the BAO statistical data pertaining to the new subcontractor, including race, gender, national origin, and business location.

[The information required by this Subsection H shall be provided pursuant to Schedule G-2005 (attached).]

4.46.080 Good faith efforts.

A. Good Faith Efforts. In addition to regular and customary solicitation processes for contacting potential subcontractors and/or vendors, all Bidders are required to:

- (1) Make efforts to include MWBEs in the procurement process;
- (2) Make efforts to ensure that businesses are not discriminated against on the basis of race, ethnicity or gender;
- (3) Ensure that prospective subcontractors, vendors, suppliers and others are not denied opportunities to compete for work on the Project on the basis of their race, ethnicity, or gender;
- (4) Afford all firms, including those owned by racial or ethnic minorities and women, opportunities to participate in the Project to the extent of their availability, capacity and willingness to compete;
- (5) Demonstrate compliance with these Program requirements with appropriate documentation submitted with their Bids;
- (6) Maintain for a minimum of three years after Substantial Completion of the Project detailed records, including correspondence and responses

thereto, regarding the Project, and other relevant papers required by the Program or Section 4.12.180.

B. Methods of Demonstrating Good Faith Efforts. Bidders shall demonstrate Good Faith Efforts by demonstrating efforts that may include, but are not limited to, the following:

- (1) Attending informational meetings to update potential subcontractors or vendors of subcontracting or supply opportunities.
- (2) Dividing the contract, in accordance with normal industry practice, into small, economically feasible segments that could be performed by a MWBE. Under no circumstances, however, shall a Bidder segment work solely for the purpose of utilizing MWBEs as subcontractors where such segmentation is not in accordance with common and accepted industry practices relating to the utilization of other firms as subcontractors.
- (3) Providing a written explanation for rejection of any potential subcontractor or vendor to the Bidder, including the name of the firm awarded the subcontract or supply agreement. The BAO will maintain these records and make same available to any subcontractor or vendor rejected by the Bidder.
- (4) Providing a non-discriminatory work site. Maintaining a work environment free of harassment, intimidation and coercion at all construction sites, offices and other facilities at which the Bidder's employees are assigned to work. The Bidder shall specifically ensure that all labor supervisors, superintendents, and other on-site supervisory personnel are aware of and carry out the Bidder's obligation to maintain a non-discriminatory work environment.
- (5) Soliciting specific individual MWBEs whose availability as potential sources of goods or services can be reasonably ascertained. This measure includes sending letters or making other personal contacts with specific certified MWBEs including those that the Bidder has contracted with in the past as well as other MWBEs with which the Bidder may be unfamiliar, but whose identities can be ascertained from a directory of certified MWBEs maintained by the BAO.
- (6) Sending letters or making other personal contacts with other programs as well as private trade associations in the Nashville Metropolitan Statistical Area ("MSA") which are known to publicize contracting and procurement opportunities for the benefit of their respective associates and/or members.
- (7) Advertising in trade publications of general circulation in the MSA. The advertisement shall identify and describe the specific subcontracting or other opportunity in reasonable detail.
- (8) Following up initial solicitations by contacting potential subcontractors or vendors to determine, with certainty, whether these firms are interested in participating on the contract.
- (9) Thoroughly investigating the potential subcontractor or vendor's capabilities in good faith.
- (10) Providing reasonable assistance to a MWBE in need of equipment, supplies, bonding, letters of credit and/or insurance.

- (11) Providing reasonable technical assistance to MWBEs to ameliorate any deficiencies of technical knowledge or advance skill, where such assistance is undertaken by the Bidder to facilitate the MWBE's successful participation on a project or contract.

[The information required by this Subsection B shall be provided pursuant to the Good Faith Efforts form (attached).]

4.46.090 Evaluation of bid for program compliance.

A. Bids submitted to the Construction Manager in response to a solicitation issued by the Construction Manager shall include the documents required by Sections 4.46.070 and 4.46.080 (as attached). The Construction Manager shall timely forward information regarding its recommended Bidder to the BAO. The BAO shall then on a timely basis evaluate whether it believes the Bidders have engaged in and adequately documented its Bid efforts to ensure that its process of soliciting, evaluating and awarding subcontracts, placing orders, and partnering with other companies has met the criteria of the Program including the use of Good Faith Efforts. Upon confirmation of compliance by the BAO to the Construction Manager, the Construction Manager shall proceed to award a contract upon concurrence with the BAO confirmation.

B. If the BAO's analysis suggests that the Construction Manager's recommended Bidder has failed to comply with the good faith or other requirements of the Program, the BAO shall send written notice to the Construction Manager. The notice shall set forth with particularity the reasons for the questioning of non-compliance and shall schedule a conference at which the issue may be reviewed with the Construction Manager and/or Bidder. The Bidder shall be permitted to present any additional materials relevant to the question of non-compliance for consideration. If, after the conference and upon consideration of all relevant materials, the BAO is convinced that the Bidder is in fact compliant with the requirements of this chapter, the BAO shall notify the Construction Manager, who shall proceed with an award of contract upon concurrence with the BAO recommendation. If the BAO concludes that the Bidder is not compliant with the requirements of this chapter, the BAO shall so notify the Construction Manager, who shall, upon concurrence with the conclusion, reject that Bidder's Bid, identify another Bidder as the recommended Bidder, and forward that recommendation to the BAO. The BAO shall then proceed to evaluate the Bid submitted by the new recommendation. If the BAO and the Construction Manager are unable to concur on the question of non-compliance, the matter shall be referred to the Authority's DBE and Procurement Committee for a determination.

Sanctions and penalties for non-compliance. The Authority reserves and retains all rights to recommend and/or enact appropriate mechanisms to enforce the provisions of its Procurement Policy and this Program, in consultation with the Construction Manager and BAO, through suspension, debarment or sanction in the event there is evidence of specific conduct that is inconsistent with or in direct contravention of the applicable provisions of this Program.
